# Linux Primer

Thursday, March 11, 2021   4:36 PM

Click Kringlecon 3, and then the letter

Enter the streetcar
Use the arrow keys or click to move.

Enter Santa's Workshop, then go around to the back.

Do this raspberry pi terminal.

The terminal runs in the browser. Lollipop Hunting time baby!

All the lollipops on this system have been stolen by munchkins. Capture munchkins by following instructions here and 🔍's will appear in the green bar below. Run the command "hintme" to receive a hint.

Type "yes" to begin: ▯

Now find the munchkin inside the munchkin.
The command 'cat' can be used to see the contents of a file.

```
elf@119a068d1167:~$ cd
elf@119a068d1167:~$ ls
HELP  munchkin_19315479765589239  workshop
elf@119a068d1167:~$ hintme
elf@119a068d1167:~$ ▯
```

Don't forget "hintme" if you get stuck.
If you close it, you will have to start over.
If you complete it, you can always just click the raspberry pi to do it again.
Come back and practice every now and then!
